**INTRICON REPORTS 2017 FOURTH-QUARTER AND FULL-YEAR RESULTS**  
*Medical and Value Hearing Health Performance Drive Double-Digit Fourth Quarter  
Sales Gains and Record Year*

**ARDEN HILLS, Minn. — February 12, 2018 — IntriCon Corporation (NASDAQ: IIN)**, a designer, developer, manufacturer and distributor of miniature and micro-miniature body-worn devices, today announced financial results for its fourth quarter and year ended December 31, 2017.

**Highlights:**

- Record full-year revenue of \$88.3 million increased 29.9 percent over 2016;
- 2017 full-year gross margin of 30.0 percent, also a record, was up from 25.1 percent in the prior year;
- Fourth-quarter net sales rose to \$22.2 million, up 25.2 percent from the prior-year fourth quarter;
- Sales to IntriCon's largest medical customer rose 41.3 percent from the 2016 fourth quarter;
- Hearing Help Express (HHE) hearing aid orders increased 173 percent in the quarter over prior-year fourth quarter;
- Gross margin for the quarter was 30.0 percent, up significantly from 25.9 percent in the year-earlier period; and,
- IntriCon reported fourth-quarter diluted net income per share of \$0.07 versus a (\$0.27) loss in the 2016 fourth quarter.

**Financial Results**

For the 2017 fourth quarter, the company reported net sales of \$22.2 million, up 25.2 percent from \$17.7 million in the prior-year period. The increase was primarily due to year-over-year revenue gains from IntriCon's largest medical customer and continued traction in value hearing health.

IntriCon posted net income attributable to shareholders of \$518,000, or \$0.07 per diluted share, versus a net loss attributable to shareholders of (\$1.8) million, or (\$0.27) per share, for the 2016 fourth quarter. During the quarter, the company also closed on the acquisition of the remaining 80 percent equity interest in HHE. The transaction resulted in an \$880,000 decrease in Shareholders' equity, but did not have an impact on net income.

(more)

---

“Our medical and value hearing health businesses continue to drive strong top- and bottom-line performance, leading to record annual sales,” said Mark S. Gorder, president and chief executive officer of IntriCon. “During the fourth quarter, we further advanced our new direct-to-consumer channel to deliver superior, outcomes-based, affordable hearing healthcare. In addition to completing our acquisition of HHE and continuing to deliver quarter-over-quarter progress, we also made further investments in Soundperience—a German-based provider of key self-fitting technology.”

Fourth-quarter gross profit margins were 30.0 percent, up significantly from 25.2 percent in the prior-year fourth quarter. The increase primarily stemmed from greater volume and stronger HHE margins in 2017, as more IntriCon devices are being sold through this channel.

Operating expenses for the fourth quarter were \$6.1 million, compared to \$5.1 million in the prior-year period. The increase was largely due to increased advertising investments at HHE in 2017, and other key initiatives to drive the business’ growth.

For the year ended December 31, 2017, IntriCon reported record sales of \$88.3 million, up 29.9 percent from \$68.0 million in 2016. The company delivered net income attributable to shareholders of \$1.8 million, or \$0.25 per diluted share, versus a net loss attributable to shareholders of (\$4.6) million, or (\$0.71) per diluted share, in 2016.

#### **Business Update**

Sales in IntriCon’s medical business increased 27.2 percent in the 2017 fourth quarter over the prior-year period. The gain was primarily driven by the ongoing production of wireless glucose monitoring systems for IntriCon largest medical customer. The company remains very well positioned with this customer for 2018, providing key system components including, the continuous glucose monitor (CGM), sensor assembly and related accessories. IntriCon anticipates system demand to further increase throughout 2018.

(more)

---

IntriCon's overall medical business demand also continues to strengthen. Over the last six months, key medical customers have invested, or made commitments to invest, in over \$3 million in capital equipment. In response to these commitments, IntriCon is expanding its manufacturing footprint. First, the company is phasing out select legacy hearing health product lines in its existing Minnesota facility to free up manufacturing floor space. Second, in the current quarter, IntriCon intends to secure additional manufacturing floor space near its existing locations in Minnesota, to accommodate robotic assembly of medical components and systems. In conjunction with the added space, IntriCon is also increasing its molding capacity. During the 2017 fourth quarter, the company added six presses and has another five presses on order for delivery in the first half of 2018.

On the hearing health front, total sales increased 31.5 percent from the prior-year fourth quarter, primarily stemming from growing traction with the company's value hearing health initiatives, including 28.0 percent growth in direct-to-insurance sales, the addition of new private label direct-to-consumer hearing device partners and a \$1.9 million contribution from HHE, partially offset by declining conventional channel sales.

During the fourth quarter, IntriCon completed its acquisition of HHE, acquiring the remaining 80-percent stake of the DeKalb, Ill.-based, direct-to-consumer mail order hearing aid provider. Terms of the transaction included \$650,000 in cash and repayment of approximately \$1.8 million in debt to HHE's 80-percent holder.

Said Gorder, "Completing the HHE acquisition gives IntriCon direct access to consumers and the emerging value-based hearing healthcare market. HHE offers a lower-priced alternative for consumers to purchase devices directly—circumventing layers of costs associated with the conventional hearing aid channel."

IntriCon continues to make progress integrating and optimizing HHE. During the fourth quarter, the company continued to increase its marketing and sales assets by hiring a professional web developer and graphic designer. In addition, new strategic relationships with third-party marketing firms were consummated. These efforts helped drive key fourth-quarter metrics over the sequential quarter including:

- A 149 percent increase in new leads;
- A 24 percent increase in net new hearing aid customers; and
- A 6 percent increase in hearing aid orders.

During the fourth quarter, IntriCon made payments to secure its 49 percent equity interest in Frankfurt, Germany-based, Soundperience. Soundperience has designed the first psycho-acoustic method of analyzing peripheral hearing and central hearing processing, branded as the Sentibo Smart Brain System. The software is a sophisticated, self-fitting hearing aid and brain training software technology that is being used in the German market today, most notably through IntriCon's Signison joint venture with Soundperience.

---

Said Gorder, “Having access to self-fitting technology is a critical step in creating our high-quality, low-cost hearing healthcare ecosystem. This technology, which has been widely tested and praised in Europe, will help eliminate cost and other barriers of adoption in the U.S. market. We are excited to deploy this state-of-the-art technology once the FDA has finalized the regulation mandated by the OTC Hearing Aid Act of 2017.”

Also during the quarter, IntriCon amended its credit facilities with CIBC Bank USA (formerly The PrivateBank and Trust Company). The revised lending structure gives the company financial flexibility to move quickly on value hearing-health opportunities that arise, and supports IntriCon’s thriving medical business and related working capital growth requirements.

#### **Looking Ahead**

Concluded Gorder, “2017 was transformational year for IntriCon. We posted record top-line growth in our key medical and value hearing health businesses. Importantly, we began to strip away the significant barriers that prevent innovative hearing health solutions, and through HHE, we’re now providing affordable and accessible solutions to millions of unserved or underserved Americans. Additionally, we were able to strengthen key medical relationships, enabling meaningful growth opportunities. We enter 2018 with the assets in place to deliver superior outcomes-based affordable hearing healthcare, drive continued growth in our medical business and reward our shareholders with value.

“Based on information currently available, we anticipate 2018 first-quarter net sales, which incorporated new revenue recognition standards, to range between \$23 million and \$24 million. For the year, we are increasing our sales estimate, as we now anticipate sales to range between \$103 million to \$107 million.”

**Conference Call Today**

As previously announced, the company will hold an investment community conference call today, Monday, February 12, 2018, beginning at 4 p.m. CT. Mark Gorder, president and chief executive officer, and Scott Longval, chief financial officer, will review fourth-quarter performance and discuss the company's strategies. To join the conference call, dial: 1-888-740-6139 and provide the conference ID number 5521522 to the operator. To access the replay, dial 1-888-203-1112 and enter passcode 5521522.

**About IntriCon Corporation**

Headquartered in Arden Hills, Minn., IntriCon Corporation designs, develops and manufactures miniature and micro-miniature body-worn devices. These advanced products help medical, healthcare and professional communications companies meet the rising demand for smaller, more intelligent and better-connected devices. IntriCon has facilities in the United States, Asia, the United Kingdom and Europe. The company's common stock trades under the symbol "IIN" on the NASDAQ Global Market. For more information about IntriCon, visit [www.intricon.com](http://www.intricon.com).

**Forward-Looking Statements**

Statements made in this release and in IntriCon's other public filings and releases that are not historical facts or that include forward-looking terminology, including estimates of future results, are "forward-looking statements" within the meaning of the Securities Exchange Act of 1934, as amended. These forward-looking statements may be affected by known and unknown risks, uncertainties and other factors that are beyond IntriCon's control, and may cause IntriCon's actual results, performance or achievements to differ materially from the results, performance and achievements expressed or implied in the forward-looking statements. These risks, uncertainties and other factors are detailed from time to time in the company's filings with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the year ended December 31, 2016. The company disclaims any intent or obligation to publicly update or revise any forward-looking statements, regardless of whether new information becomes available, future developments occur or otherwise.
